DETAILED ACTION

Allowable Subject Matter

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims 1-16 have been allowed because the prior art does not disclose or suggest an aerosol package comprising a container having: side walls, a bottom wall and a top wall collectively defining an enclosed chamber having a predetermine volume, the chamber having a predetermined burst pressure at a predetermined temperature, and a valve outlet to selectively dispense the fluid from the container; an aerosol propellant and a liquid in the chamber, the propellant having a predetermined vapor pressure at selected temperatures; the liquid further comprising a predetermined concentration of a gas-producing compound that is stable in the liquid under controlled conditions but that will decompose in the presence of certain reagents to produce a gas within the chamber; wherein the amount of the liquid of the gas-producing-compound in the container is selected to be the maximum amount of liquid that can safely be loaded into the container without exceeding at least 80% of the burst pressure of the container in a worst case decomposition scenario wherein the gas producing compound is assumed to be completely decomposed; and the temperature of the container and contents are at least at ambient temperatures at which the aerosol package is expected to be stored.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
